About This Game

The Sun is your Father. The Earth is your Mother. All Beings are your Prey.

Golden Treasure: The Great Green is a hand-painted game about choices, survival, and life as a non-human being. Players take on the role of a dragon and must survive the tender and dangerous years of childhood, forging a path to maturity in the beautiful and deadly world of Earth in the Bronze Age.

To survive, you must hunt prey, fight other dragons for dominance, plunder underground labyrinths for treasures, explore the far corners of the wilderness and, most importantly, grow and learn about the Great Green and its many inhabitants, from birds and beasts to ancient spirits. If you become wise and powerful enough, you may just change the history of our world and the fate of dragonkind.

Features:

- Over 100 hand-painted scenes

-
- Three massive open-world areas to explore
 - Thousands of choices and several completely distinct endings
 - Full combat system with 70+ opponents and dozens of special abilities
 - Four elemental paths of enlightenment to master
 - Original 3-phase hunting system; stalk, pursue, and destroy your prey
 - First-person labyrinths to explore, each with its own unique story and treasures
 - Dozens of unique artifacts and ancient secrets to discover

The free demo version includes the entirety of the Prologue and Part 1 of the game, including hours of original gameplay. Permanent unlockables (Tarot Cards, Animal Mastery and Artifacts) will be carried over into the full game.
